### ARBITRATORS IN BESSION.

The inquiry into the causes of the strike on the New York Central Railroad, which began yesterday, was conducted in a manner to create much satisfaction. Vice-President WEBB showed proper respect for the authority of the Board, and when thus brought to bay answered most of the questions which were propounded to him. By advice of his counsel Mr. WEBB

refused to answer the question as to what his arrangements with the Pinkertons were, although the Board decided that he should do so. This looked somewhat like reading the Board a lesson on its duty and authority.

A very interesting feature of the inquiry was the correspondence between Mr. Powsought to dissuade from the strike, and Mr. Laz, the Master Workman who ored the strike. Mr. POWDERLY predicted the failure of the strike, and warned Mr. Laz that it was the policy of the Central to precipitate it now.

Mr. Pownentr's analysis of the situation was a masterly one and showed him a long-headed and cool-headed leader. The testimony of some of the discharged employees seemed to show that their association with the Knights was the cause of their dismissal, though Mr. WEBB reiter- back. ated his assertion that none of the men were sent away for this reason.

# THE CITY IS AREAD.

It is some comfort to know that the New York Central does not own the Harlem River, and that the millions at the back of this corporation are not strong enough to carry a point which conflicts with the interests of this city.

The best thing the Central can do is to put a tunnel under the Harlem Hiver, and not try any longer to block the improvements in that stream which will increase the commercial advantages of New York.

The late little exhibition in Maine by a Republican member of Congress is an other blemish on the party to whom he belongs. The Republican party has had good training in the matter of weathering scandals, but it is poor policy to let flagrant violations of political integrity and bonor accumulate and send forth a malodorous exhalation with uninterrupted vigor. Such perfume is apt to linger about the polls and have a determining influence on the honest voter.

To object to the activity displayed by members of an organization, and to object to their membership in the organization, are not such very different things. If members of an organization are not to labor to promote its interests, organizing at all seems rather a senseless thing.

The suggestion to make a memorial of the late Jour Borry O'Rettry by setting spart a portion of the Boston Public library for a collection of Celtic literature is a worthy one. that the English parents, accompanied by the aged family solicitor, arrived in Chicago. How it was ever managed no one will ever know, but the bride on coming home one afternoon found her hustand gone and upon the table an envelope containing \$500 in American money and a note, unsigned, informing her that she would never see her husband again.

How she bore her loss cannot known: it can only be imagined. She left the little flat in which her all-ton-brief period of happiness had been passed and took rooms in a boarding-house.

She went back to her work, and in the due course of time there arrived a little.

"Have a bowl of milk and some bread and butter, or something, sent up there and butter, or something, sent up there and butter, or something, sent up there are we taken butter, or something, sent up there and butter, or something, sent up there are we know, but the bride and butter, or something, sent up there are we have bowled butter, or something, sent up there are we have bowled butter, or something, sent up there we know."

"Can't. Steward's gene ter the show."

With six other hungry men I went out and reduced my hunger with crackers from beer in original packages. After several experiences of a similar nature I learned to arrive in new towns at 7 o'clock, or go foolless until the following day, as invariably the cook and the steward were out driving or receiving visitors and could not be disturbed. present, the BARGAINS ON OUR FLOORS IN-CREASE VERY FAST

Two years went by and the saddened woman was still leading her lonely life. It was while sitting on a bench in Lincoln Park at dusk one Saturday afternoon, with her infant playing on the grass at her feet, that she espied a tall, hearded man with a bronzed face regarding her intently.

It was her husband.
